Big News for KYSCCA Announced at July Membership Meeting

At the July Membership Meeting, RE Jamey McDaniel was beaming more than usual before the meeting began. You could just tell he had a surprise in store for the club, but what? He began the meeting by presenting the new regional trophy design, a bourbon glass with elegant engraving. It is impressive, but there had to be something else in store. After some fun with marshmallows, (you had to be there) and a few more conversations, Jamey called attention to a stack of official documents. They were 4 signed and approved contracts with the Corvette Museum to have four autocross events run by our club at the pad within the Corvette Museum Motorsports Park complex. Wow that is big news. Jamey and the board have been working with the museum for months and the effort has paid off. There will be 4 events with-in the months of March, May, July and August 2015. Set dates to be determined.

Never mind the cones, is that a light pole in the middle of my hood? by Russ Coleman

As an autocrosser, the last thing you want going through your mind as you make eye contact with the starter to line your car up perfectly for the launch is the thought of whether or not your insurance would cover an accident while driving on course. The burden of this looming question has been placed with me, an insurance broker and owner of Coleman and Associates Insurance Group.

There are two perspectives from which you can present this question when calling your agent. The SCCA sponsored event is NOT classified as a race because there is only one car out at a time, and there are instructors on-site, therefore making it considered a driving school. Whatever you do, NEVER say the words "race" or "performance" when describing the event. It would be better perceived as a "driver skill and instructional" course. Let's make sure to clear the air here. I'm not saying that this is a sure way to talk your insurance company into paying a claim but it's a step in the right direction. Now the second viewpoint is probably not what you want to hear but it is the most

feasible. The reality of the situation is that any timed speed event would most likely suspend all coverage. I would love to assure you that you could sweet talk your way around some details and end up covered by way of third party insurance or supplemental insurance. Unfortunately, that would be a gamble with odds against you. The positive aspect of this article is that accidents causing damage are rare at autocross events. The fact that no other cars are on the course with you leaves very little chance that anything but a spin out will occur with the possibility of also hitting rubber cones and leaving a little rubber scum on your pain finish. Just find the silver lining with this information being that the fear of no coverage will most likely make you a superb driver with fine-tuned skills and the focus of a true professional.

The Steinke Farm provided a safe haven for the KYSCCA refugees at the CKR points event 6. Left to right: Marcie McDaniel, Annie Steinke, Joey Gumer, Scott Kimbel, Dave Melton and Cole Salvo.

CKR has the SCCA Spirit

Yeah you know CKR, the trophy raiders from Central Kentucky? Well I have to tell you they are a friendly, helpful group of auto X-ers that put on very fun events. I say this from the great experience I had at the July points event on July 13 at ECU Coliseum. Our regions are what the SCCA is all about, good friends and sportsmanship!
