The Tire Rack Street Survival® Teen Driving School – Car control

instruction designed to provide teen drivers with accident avoidance skills and knowledge.

It's not just about Driving, It's about Living...

- The leading cause of death among 13-19 year olds in the US is from a motor vehicle crash.
- 62% of teenage passenger deaths in 2004 occurred in vehicles driven by another teenager.
- Teenagers cause 2.5 million accidents per year.
- In 2007 that resulted in over 6,000 deaths of teens.

If you have a teen driver at home or know someone who does, then those sobering statistics should be of concern. Recent and well publicized national stories have brought to light the tragedy of teen injury and death caused by traffic accidents. The stories often mention how the teen driver "lost control and over-corrected..." causing a tragic accident of some kind.

Your local media most likely has reported on a similar story in the not-

to-distant past, or you may know of a teen involved in such circumstances.

To address this national issue, The Tire Rack Street Survival® teen driving schools were developed by the BMW Car Club of America (BMW CCA) and the BMW CCA Foundation in 2002. The programs have expanded to most major communities and are now conducted as well by the Sports Car Club of America (SCCA) regions with support from the SCCA Foundation.

The registration fee of \$75.00, which covers only the cost of materials and equipment, provides students with experienced instructors who safely guide students through a day of behind the wheel instruction and short classroom sessions. Driving skill courses are specifically designed to mimic every day driving hazards, obstacles and challenges. Students will use the vehicles the student driver is most familiar with, which is usually their family or personal car, truck, or SUV.

Parents are urged to talk to their teen drivers about the advantages of attending this one day program. Eligible students are 16 to 21 years old and hold a valid unrestricted driver's license or a valid permit. Students should have some driving experience and parents should make plans to attend the programs along with their teens.

Parents are encouraged to register their teen drivers for this program on-line at www.streetsurvival.org.

Further information about Street Survival schools in your area can be obtained by contacting Rick Myers or Howard Duncan at 800.770.2055.

Keep in mind that to be considered for a year end trophy that you have to be a member or an associate member of KYSCCA and have competed in at least (4) events for the season. This list includes both non-members and folks who have not competed in at least (4) events, so ignore the "T" next to the names for the list will be whittled down substantially.

*Also, on the ballot there was an oversight. Ron Riffle was nominated as a board member and should be on the ballot, but was accidentally omitted. If you would like to vote for Ron, please add his name in the "write-in" entry and place a check by his name. Additionally, this is another reminder to send in your ballots AND make sure you sign and print your name on the back. Otherwise your vote will not count.——

RE's Corner September 2011

Well, the season is about to end with one more fun event on October 2nd. Overall we have had good growth in attendance and membership and we have been able to address our bumps in the road. We have strived to put on good events this year and have fun to keep folks returning. However, I want to reiterate a few items when working at an event.

The expectation is that if you compete at an event you must follow (3) rules.

1) You must check in for work with the Chief of Workers. This is usually Ron Riffle at our events.

2) If you're working out on course cell phone usage is not allowed. Its kind of like texting and driving when your eyeballs should be on the cars around you.

3) When you check in you must work your position for the **entirety** of your heat. If people take off when they wanted you can see the event falling into mayhem.

I especially want to emphasize the waiver gate position. This position has to be maintained at **ALL** times during the event

and can only be manned by a member of SCCA. If you are assigned to waiver gate **you cannot leave the post until someone relieves you.** We will work on giving relief to the position during the lunch break. Penalties for not showing up for work or abandoning a worker post through part of a heat will result in **DSQ's for your runs.** If we see reoccurring incidences by the same people then they will be asked to not return. Sorry to be harsh, but I believe most incidences are attributed to misunderstandings rather than malice.

Cheers!

Julia Abersold RE
